INVITATION LETTER

Subject : NATO C2COE Annual Seminar
"The Future of NATO Decision-making"

Date : 21-23 November 2023

Letter nr. : NATOC2COE/230711/016/HH/O

Dear Command & Control (C2) community,

This year's seminar, organised in cooperation with the Canadian Joint Warfare Centre, is titled **"Future of NATO Decision-making".** An important but complex subject in a time where conditions change rapidly. This event will take place from **21-23 of November 2023** at the Majoor Jan Linzel Complex – The Hague, The Netherlands.

The objectives of the seminar are to share current C2 knowledge, learn from operators, academics and industry, build the C2 network, explore C2 developments and gain insights with the attendees. Together with a range of experts we will investigate the current state of C2, take a closer look at the near future and explore the unknowns: 'what changes in decision-making might surprise us?'.

For a rewarding seminar we require a variety of viewpoints. Therefore we like to welcome commanders with a responsibility in organizing and executing C2; staff and operators who deal on a daily basis with C2 issues; academics and faculty who study and share knowledge, and industry specialists with their views on technology.

You are kindly requested to register for the seminar from the 1st of August until the 30st of September on our webpage: www.c2coe.org/seminar. The webpage will be updated regularly with additional information.

If you have questions or issues, please contact the mentioned Points of Contact.
