Subject: **NATO C2COE Annual Seminar (2020)**
“Multi-Domain Operations – Keys to master complexity”

OPENING OF REGISTRATION

Dear C2 Community,

Every year, NATO’s Command & Control Centre of Excellence (C2COE) organizes a seminar on a particular aspect of Command & Control (C2).

The 2020 seminar will take place from the 23rd till the 25th of June in Bratislava, Slovakia, titled **“Multi-Domain Operations (MDO) – Keys to master complexity”**.

The aim of the seminar is to challenge participants’ preconceived notions of MDO by providing the latest insights and perspectives on C2 in a changing operating environment. In order to achieve this, the C2COE has invited a range of experts, both scholars and operators, to share their viewpoints on various aspects of MDO, thus illustrating its need and relevance, while addressing opportunities and challenges surrounding the current and future battlefield.

You are invited to visit our web page www.C2COE.org as the registration for the event is now open. You will receive the confirmation email upon submitting your registration. The conference fee is 120 euro.

It is with the above mentioned in mind that I would like to offer you the opportunity to contribute to the seminar with a speech, presentation, article or demonstration relevant to the subject.

Keynote speakers:

- Dr. David Alberts (Institute for Defense Analyses)
- Lt. Gen. Thomas Sharpy (ACT DCOS CAP DEV, USA AF)
