

LESSONS LEARNED

NATO
C2COE

Lessons Learned Process and Analysis

As every year, in 2020 the NATO C2COE is ready to analyze, on request, topics within the specific area of C2 in order to produce an analysis report, either to support ACT and JALLC or to lead a study. In addition, the NATO C2COE participates in the annual workshops of the NATO Lessons Learned Community and contributes to the further development of NATO's LL process.

For more information on the NATO C2COE activities related to the activities related to Lessons Learned and Analysis, please contact our project officer:
