

INVITATION LETTER

Subject : NATO C2COE Annual Conference
'NATO MDO Synchronisation – C2 Implications'

Date : 19-21 November 2024

Letter nr. : NATOC2COE/240715/019/JW/O

Dear Command & Control (C2) community,

This year's conference, organised in cooperation with the Canadian Joint Warfare Centre, is titled '**NATO MDO Synchronisation – C2 Implications: How to achieve converging effects in the continuum of competition?**' An important but complex subject in a time where conditions and requirements change rapidly. This event will take place from **19-21 of November 2024** at the Major Jan Linzel Complex – The Hague, The Netherlands.

The objective of the conference is to gain new insights on how the NATO transformation into a Multi-Domain Operations (MDO) enabled Alliance can be further supported from a Command and Control (C2) perspective. An important element is the synchronisation with non-military actions within other Instruments of Power and with external stakeholders. The discussions during the conference will be focused on the C2 implications of synchronisation in support of this NATO transformation.

The NATO C2COE Conference is a high-level event, bringing together military and civilian senior and future leaders of multinational commands and organisations. These leaders will be joined by various subject matter experts with a civilian, academic or industry background. Multiple presentations, interactions and group & panel discussions will allow the expertise and different viewpoints of the participants to create and contribute to a better understanding on how an effective NATO MDO synchronisation can be achieved and how C2 implications are to be managed, in order to achieve the desired converging effects in the continuum of competition.

Registration for the conference is possible from August 5th until October 11th on our webpage: www.c2coe.org/conference. The webpage will be updated regularly with additional information.

If you have any questions, require a personal letter of invitation or would like to make a contribution related to this conference, please contact the OPR or DOPR mentioned as Points of Contact.
